SUMMARY

Data Analyst with a strong foundation in data analysis, SQL, and data interpretation. Experienced in data cleaning, data wrangling, and exploratory data analysis (EDA) to extract meaningful insights from structured data. Proficient in Python (Pandas, NumPy) and Power BI for data visualization and reporting. Skilled in statistical analysis, trend identification, and problem-solving to support data-driven decision-making.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, C
- **Database:** MySQL
- **Data Analysis & Visualization:** Data Cleaning, Data Wrangling, Data Analysis, Data Visualization, Exploratory Data Analysis (EDA), Power BI
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- **Tools & Platforms:** MS Excel, Jupyter Notebook, VS Code, GitHub
- **Concepts:** Statistical Analysis, Data Interpretation, Problem Solving, Data-Driven Decision Making

EXPERIENCE

Data Analyst

Greateway Software Pvt. Limited

Nov 2025 – Present

- Analyzed structured datasets using SQL to identify trends, patterns, and actionable insights for business improvement.
- Performed data cleaning and preprocessing to ensure data accuracy, consistency, and reliability for analysis.
- Executed complex SQL queries to extract, transform, and analyze data efficiently from multiple sources.
- Developed interactive reports and dashboards using Excel and Power BI to support data-driven decision-making.
- Collaborated with cross-functional teams and automated repetitive data tasks to improve efficiency and streamline workflows.

PROJECTS

End-to-End Customer Purchase Analytics

MySQL, SQL, Power BI, DAX | [View Project](#)

- Developed an end-to-end customer analytics solution using MySQL and Power BI to analyse customer behaviour, retention, and revenue trends.
- Performed RFM analysis to segment customers into VIP, Loyal, At-Risk, and Lost categories for targeted business insights.
- Built cohort retention and Customer Lifetime Value (CLV) dashboards using SQL and DAX to measure customer engagement and value.
- Created interactive Power BI dashboards and reports to identify churn patterns, track KPIs, and support data-driven decision-making.

Retail Sales Data Analysis

Python, Pandas, NumPy, Matplotlib, MySQL | [View Project](#)

- Explored retail sales data to understand trends, seasonal demand, and customer behavior patterns.
- Processed and cleaned the dataset by handling missing values and inconsistencies to improve data quality.
- Performed statistical analysis and created visualizations to identify insights and support reporting.
- Developed and refined SQL queries for data extraction and aggregation to enable efficient analysis.

EDUCATION

Bachelor of Engineering in Artificial Intelligence

2025

J D College of Engineering and Management, Nagpur

CERTIFICATIONS

- **Data Analytics** – Fusion Software Institute, Pune
- **Artificial Intelligence** – Accenture (via Krutanic)

PERSONAL DETAILS

- **Name:** Ritikaa Rajesh Mishra
- **Date of Birth:** 13-10-2003
- **Marital Status:** Single
- **Nationality:** Indian
